A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them *Remedies of Known Composition.*

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, bid fiver or biliousness and all catarrhal diseases wherever located, have printed upon it, *in plain English*, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing *in the strongest possible terms*, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

PROPOSED MOVEMENT OF FLEET

The belief is growing in naval circles that the big fleet of 14 battleships now in Atlantic waters, and which was scheduled to make the trip around the Horn to the Pacific coast, will not make the contemplated trip—not in the immediate future, at least. This belief was strengthened yesterday morning by the announcement at the Navy Department that the armored cruiser squadron now in the Philippines, and under the command of Rear Admiral Dayton, will leave the Pacific coast within 10 days or two weeks.

This announcement follows a statement made by President Roosevelt at Oyster Bay on Wednesday that no order had been given by him to the Navy Department to send the battleship fleet to the Pacific. And further, that the President knows of no order issued by the general board to that effect. In this statement the President is quoted as saying: "The present plan is to have the battleships leave on a cruise early in the fall. They may go to the Pacific. The destination has not yet been determined."

BLOODSHED IN SEOUL.

A crowd of 5,000 Koreans was beaten back yesterday from the palace gates. During the audience with the cabinet Thursday night, when the Emperor acquiesced to the demand for abdication, a number of students attempted to present a petition to the Emperor, but the police prevented them from doing so, driving them back east of the palace, where they remained all night making speeches. At midnight Chief of Police Maruyama distributed carbines to the palace police, but the crowd continued to increase.

The city became quiet at nightfall, and is now under military patrol. A heavy rain following the outbreak of yesterday was largely instrumental in dispersing the crowds. All traffic has been stopped and Japanese shops are guarded. The police report that twenty-five Japanese were killed and wounded in the day's rioting. The casualties among the Koreans are unknown.

An official Japanese report ascribes the shooting yesterday to Korean soldiers who could not be controlled by their officers.

TRAGEDY RECALLED.

Mrs. Augusta Nack, Martin Thorn's partner in the murder of William Guldensuppe—a crime talked of all over the world 10 years ago—has been released from Auburn, N. Y., prison. Guldensuppe, a Turkish bath rubber, boarded at the Nack home, and fell in love with the woman, though she was already a wife. Mrs. Nack, however, preferred Thorn, a dashing barber. To obtain some small wealth Guldensuppe owned, as well as to prevent him from telling certain things he knew, the woman lured him to a house in Corona, L. I., where Thorn struck him down with a club. The two then cut the body up and scattered it, piece by piece, from a ferryboat in the East river. The fragments of the corpse floated ashore, were identified by tattoo marks, and led to Thorn's and Mrs. Nack's arrest. The women turned State's evidences and on her testimony Thorn died in the electric chair. She says prison has reformed her, and that she will lead a better life.

ANOTHER PLUNGE TO DEATH.

Dropping 13 stories through an elevator shaft, James Pawesic, 32 years old, plunged to instant death in the LaSalle Street passenger station in Chicago yesterday afternoon. It was the third suicide of its kind in as many days in Chicago. The falling body struck on the roof of an elevator. The iron framework of the car was crushed and torn as if it were so much paper, the body dashing through it and striking the conductor. The conductor was seriously injured. His right arm and shoulder caught the weight of the descending form and he was dragged unconscious from the elevator. Pawesic was an electrician employed in the station. He appeared to be in a dazed condition a few minutes before the tragedy.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." ELOPING GIRL ILL-TREATED.

Lora Letandra, a vivacious eighteen-year old Fall River, Mass., girl who eloped with Harry Moran because of parental opposition to Moran's attentions, was separated from Moran in Palmer and criminally assaulted by Charles Thompson and Thomas Murphy. Miss Letandra and Moran asked for a drink of water at Thompson's house. The men represented themselves to be police officers, and told Moran that it would be necessary to send Miss Letandra back to her home, and that unless he departed he, too, would be arrested. Miss Letandra was given a room in the house by herself. During the night Murphy entered the room. Miss Letandra, who weights less than 100 pounds, fought her assailant, but was overcome. Thompson also attacked her. Miss Letandra jumped from a second story window and was taken back to the house by Thompson. She finally became unconscious. Her condition is serious. The two men have admitted their guilt.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

SATURDAY EVENING, JULY 20, 1907.

TO-MORROW will be the forty-sixth anniversary of the battle of Bull Run, or "the first Manassas," as it is also called. The percentage of Alexandrians who heard the roar of the conflict on that memorable Sunday is now comparatively small. Two generations have since appeared on the stage of life, and the grandfathers of some now living have no recollection of the stirring scenes in this city which preceded and followed the battle. While the dogs of war were at each others' throats, there were men and women in Alexandria who remembered the capture of the city by the British in 1814, the bombardment of Fort McHenry, and the battle of North Point. All such have paid the debt of nature and the recollections of the oldest now living can only testify concerning the war with Mexico and the war between the States. The wheels of time continue to revolve. Ere many years the cotemporaries of those who participated in the Mexican war will have passed from the scene, while the eye-witness of the civil conflict will be as the lean and slippered pantaloon regaling grand and great-grandchildren with scenes in connection with the battle of Bull Run. At the outbreak of the war between the north and South one of the first storm centres was in this vicinity. In fact the vortex was in Alexandria. The disturbance, however, was short-lived and when our people ventured from their storm cellars they found the city in the hands of the federal army. There had been a double tragedy at the Marshall House. The proprietor was weltering in his own blood, having forfeited his life in defending his house on which a Confederate flag had been placed. The colonel of the regiment which had entered the hostelry was also a corpse, and was being borne on the guns of soldiers to a steamboat to be forwarded to his northern home. This dual tragedy was followed two months later by the sanguinary battle of Bull Run and the discomfit of the federal army which fell back upon Washington. The streets of Alexandria on the day following the battle were filled with hungry straggling soldiers, many of whom had previously left the city with the cry, "On to Manassas!" on their lips. They had returned crest-fallen and dejected, with their clothes bespattered with mud. They were realizing the truth of General Sherman's famous observation. Most of them were three months men whose term of enlistment was drawing to a close, and their first baptism of fire was a sufficient taste of war. The survivors of the New York Fire Zouaves, whose colonel had fallen in the Marshall House on the 24th of May, were among those who returned to Alexandria, and sought their previous quarters. While the defeated soldiers were docile and orderly, there was no disposition on the part of southern sympathizers in this city to exult over their repluse, but as the government had made no provisions for furnishing rations to the soldiers, many Alexandrians opened their houses and relieved the temporary needs of the wearers of the blue. The battle of Bull Run, however, proved to be but the first act in the conflict destined to continue four years. This portion of the world has for over two-score years been exempted from martial scenes. The dogs of war continue chained, and the dove of peace still hovers over the country. That such conditions may continue is the earnest wish of all whose lot it has been to enter into the clash of war or to witness its horrors.

IF THE Alexandria postoffice is to remain on the list of first class postoffices it should at least be provided with a telephone. At one time there were two in the office, then one was dropped and now there are none. The people who receive their mail from the office, and there are over twenty thousand, should demand telephone connection—they are entitled to it. This is a time of advancement—not turn-backwardness.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, July 20.

Unless the presence of Japanese in Korea has developed more of a national feeling among the natives than has hitherto been manifest in their history it is the opinion of State Department officials in the absence of recent advices that the present disturbances reported from Seoul following the abdication of the emperor will not last long, and that there will be little fighting. The crown prince, who has just been made emperor, will be, it is expected, a complacent official in the hands of the Japanese, who will now be able to work out their plans of reforming the government without meeting the continued obstacles put in their way by the late emperor. At the State Department it is declared that since the Japanese undertook the control of Korean foreign affairs, and assumed to look after the interest of foreign residents in that country there has been only one complaint from a American firm and that was in reference to restrictions. It is said that Hulbert was one of the advisors of the Korean emperor who lost their official heads, when the Japanese assumed control.

Officials at the Department of Justice are unusually reticent in discussing the conflict that has developed in North Carolina between the federal court and the State authorities over the enforcement of the 2½ cent railroad fare. They admit the possibilities of being drawn into the muddle. Precedents are pointed out by Supreme Court authorities, which would sustain United States Circuit Court Judge Pritchard, in citing the State judges in conflict with him to show why they should not be in contempt of court for interfering with the execution of his order. On the other hand, authorities are unable to recall any case in which State authorities openly rebelled against the federal judiciary. It is feared that unless the temper of Gov. Glenn and his friends moderate, the State judges may be encouraged to ignore a possible order of Federal Judge Prichard, forbidding them to take any further proceedings in the case, under threat of being cited for contempt. In that event the federal government would have no recourse but to swear in a posse of deputies after invoking the power of the Supreme Court, with a military force as the last resort in maintaining order and carrying into execution the federal authority, if still resisted. It is believed that the situation will not develop such a startling phase, and that the entire question of jurisdiction will be fought out in the Supreme Court of the United States.

The first step in Filipino self government is being taken in the Philippine archipelago today, in the election of a house of representatives. So far, the experiment has been a disappointment to the Americans. The natives first kept away from the places of registration. Great difficulty was later experienced in getting voters to act as inspectors and poll clerks. Although there are only 192 of these officials, twice that number had to be selected, because of the flood of declinations. The principal parties are the progresistas and the independists the main difference in platform being on the time of granting full independence to the Filipinos.

The Chinese in the Philippines have found a great opportunity in the recent change in the coinage of the islands to victimize the ignorant natives, and they have been working it for all they are worth. The silver coins have been made a little lighter than they were before, but their value has not been changed. In submitting his report for May, acting Treasurer Barrett says: "The new coinage has been received without question by all classes, except Chinese, who are showing a disposition to take advantage of the situation in their dealings with the more ignorant classes of natives, by refusing to accept the new peso at the same value as the old peso. They discount the new peso from 15 to 20 per cent, and in the provinces as high as 40 per cent. A law is being framed prohibiting such discounting, and circulars are being printed in all native dialects and in Chinese explaining the causes leading up to the coinage changes and notifying Filipinos to be ware of Chinese Shylocks."

The comptroller of the currancy announces that the Farmers' National Bank of Boyertown, Pa., was closed today by his direction, upon the report of Examiner Channing Bingham, showing it to be insolvent. J. W. Schofield has been appointed receiver. The resources and liabilities of the bank on May 20, aggregated $410,445.68.

Ambassador Wright at Tokio today cabled the State Department that the Japanese Foreign Office has been officially advised of the abdication of the Korean Emperor after he had taken counsel with his cabinet and elder statesmen.

Suit for the dissolution of the so-called powder trust will be begun by the government at Wilmington, Del., before the last of next week. In addition to asking for an injunciion restraining the defendants from further engaging in interstate traffic, the circuit court will be petitioned to appoint a receiver for the Eastern Dynamite Company, the E. I. Dupont de Nemours Powder Company and the Lafflan and Rand Powder Company. The action will be directed against the following companies: E. I. Dupont de Nemours & Company, E. I. Dupont de Nemours Powder Company, of New Jersey; the Dupont International Powder Company, Delaware Securities Company, California Investment Company, Delaware Investment Company, Hazard Powder Company, Lafflu and Rand Powder Company, Eastern Dynamite Company, E. I. Dupont de Nemours & Company, of Pennsylvania; King Powder Company, Austin Powder Company, of Cleveland; California Powder Works, Connemaugh Powder Company; Fairmount Powder Company, International Powder and Chemical Company, Judson Dynamite and Powder Company, of California; Metropolitan Powder Company, American E. C. and Schultze Gunpowder Company, limited; American Powder Mills, Anthony Powder Company; limited; Equitable Powder Manufacturing Company and the Miami Powder Company. Twenty persons, including the Duponts, will also be made defendants. A copy of the printed bill is now in the hands of the attorney general who is on his vacation in New England. As soon as it receives his formal approval the bill will be filed. It is said the government's case against the powder trust is the strongest of the many prosecutions against "bad corporations" and that it presents a marvelous case of "high finance."

The meteorological situation today shows no change to the weather forcasters for that section of the United States east of the Mississippi that has for days been reeking in an unusual spell of humidity, and in a temperature as high as if put there by a trust. For the next thirty-six hours the predictions are for continued hot, humid weather. Before the atmosphere gets the water out of its system brought in from the Atlantic where there is still an area of high pressure, the weather men expect the country to have some first class rains.

Charges alleging conduct unbecoming an officer and a gentlemen have been filed at the Navy Department against Chaplain Harry W. Jones, who holds the rank of commander and whose last sea service was with the battleship Minnesota. A court-martial is expected to be ordered soon to try the chaplain, negligence in the payment of his pecuniary obligations is alleged in the charges. This is not the first time that complaints have reached the Department about the chaplain but because of the disinclination to court-martial an officer of that grade and from the further fact that the navy has no authority to compel the attendance of civilian witnesses no action has heretofore been taken.

The work has so far progressed on the underground tunnels which are to lead from the Capitol to the new Senate and House office buildings, that it is assured that the contract will be finished on time and the work completed by next December.

With the peaceable dispersal yesterday of a posse of 300 men who had formed at Gretna, La., to lynch the Italians convicted Thursday night of the Lamana murder, the crisis of the kidnapping incident appears to have been safely passed. Governor Blanchard's prompt action in ordering out two companies of State troops within two hours after the verdict is believed to have saved the Italians' lives.

The entire force of men employed in the paint department of the Southern Railway shops at Spencer, N. C., went out yesterday afternoon on a strike for an increase of 30 cents a day. Their demands for raise had been passed up to the officials of the company, at Washington, some weeks ago, and the matter has been under consideration this week. It is not known whether the strike will become general.

A dispatch from Rome says a member of the Pope's household in an interview published last night says Pope Pius hesitated somewhat before he took the grave step of ordering the publication of the syllabus with regard to the so-called modernism in the faith. It was declared that all his doubts were removed by a miraculous apparition of the Blessed Virgin, which extended its hand in a gesture of benediction and encouragement over his head as if in answer to his prayer for heavenly guidance, and that the Pontiff thereupon rose from his knees and signed the decree.

Judge Kimball of the United States branch of the Police Court, of Washington, says he will impose jail sentences upon men convicted of making handbooks on the races; Major Sylvester, Superintendent of the Police Department says he will exert his best efforts to arrest every person engaged in the business and Prosecuting Attorney Given has increased the amount of bond to be required in handbook cases to $1,000. These are the developments in the answer to the demand that the most popular and practically open form of gambling in the District shall cease. The arrest of one man Thursday was followed by his demand for a jury trial, which means weeks of delay. Meanwhile the making of handbooks continues.

Arguing Haywood Case.

Boise, Idaho, July 20.—Attorney J. H. Hawley is winding up the prosecution's opening argument in the Haywood case today. Broken by the prolonged strain of the trial, the lawyer is so weak that he can hardly keep his feet and must cut his address shorter than he would otherwise have done that he may not completely collapse.

Attorney Richardson will follow Hawley, speaking for the defense. It is expected his talk to the jury will not be finished before Monday. Clarence Darrow is to speak next. When he is through Senator Borah will conclude for the prosecution. The arguments will hardly be finished before Wednesday night. The judge's charge will take several hours, and it is unlikely that the case will go to the jury before Thursday night or Friday morning.

Mrs. Cornell and her son were rendered unconscious from shock, but the husband escaped injury. The furniture was overturned, dishes were smashed and window glasses was knocked out, while the roof and walls of the house were covered with black spots where the lightning burned. The air was filled with dense smoke and sulphuric fumes.

STATE VS. FEDERAL COURTS

The grave danger of a serious conflict between the state and United States courts has been transferred from Raleigh, where on Thursday the Southern Railway receded from its determination to insist that Judge Pritchard, the United States judge, should take by habeas corpus from the State Superior Court General Ticket Agent Green, who was on trial for charging more than two and one-quarter cents a mile to Asheville. Judge Pritchard, who arrived at Asheville at 1 o'clock yesterday morning, issued writs of habeas corpus demanding that the sheriff of Buncombe county be present in his court and show cause why he is detaining J. H. Wood and O. O. Wilson, Southern ticket agents at Asheville who were convicted in a police court on the charge of overcharging and were sentenced to 30 day's work on the roads, on their refusal to give bond, pay a fine or appeal. This action was taken irrespective of Governor Glenn's threat to prevent by armed force any interference with the state court.

The whole trouble arises over the passage by the last legislature of a law fixing the passenger rate at 2½ cents a mile. In May, on the application of the Southern and almost every other railway of the state, Judge Pritchard directed the state corporation commission to show cause before him, at Asheville, why it should not be prevented from enforcing the law. At this hearing Judge Pritchard made an order forbidding the enforcement of the law by the state authorities until he could determine by evidence to be thereafter taken whether it was true, as alleged by the railroads, that the new rate was so low as to deprive them of any return on their property, and, therefore, as being confiscatory and violative of the Fourteenth amendment.

The injunction made certain state officers defendants, and, in general terms, restrained all other persons from bringing the penalty suit provided by the law and from proceeding criminally against the railroads.

The Southern Railway Company was yesterday fined $30,000, and Thomas J. Green, ticket agent of the company, fined $5, in the State court at Raleigh, N. C., for selling railroad tickets at a rate in excess of that provided by the recent State law for a uniform rate of 2½ cents a mile in North Carolina. The court required Green to promise not to sell tickets at the illegal rate. Green made the promise and paid the fine.

The fine was imposed by Judge B. F. Long yesterday evening after the jury had returned a verdict of guilty against the railroad and Ticket Agent T. E. Green, of the Raleigh office of the road. In the case against Green Judge Long's sentence was first $10 and a promise from Green not to again defy the law by selling tickets at an excess rate. Green was given a half hour for consideration and came into court and agreed to pay the fine and give the promise upon which the fine was reduced to $5, which Green paid. The morning was consumed by argument of counsel for and against Green and the Southern Railway, followed by the charge to the jury.

In imposing sentence on the railway Judge Long declared emphatically that jurisdiction in criminal cases in North Carolina lay exclusively with the State courts. He informed the railroad's counsel that if the railway would obey the act of the legislature and put the rate law into effect until finally passed upon by the proper tribunal the State would hold up its cases. He directed that execution be issued against the Southern Railway for the payment of the fine of $30,000 imposed, and that the papers be placed in the hands of the sheriff for execution.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Today's Telegraphic News.

Conditions in Korea.

Seoul, Korea, July 20.—Korea is in the hands of a practical dictator, Gen. Hazegawa, commander of the Japanese troops in the hermit kingdom. Though there has been no formal declaration of martial law, the military are in absolute control. So greatly are the Japanese outnumbered, however, that it is a problem whether they will be able to hold the people in subjection until reinforcements can arrive.

Fears are entertained of attacks, not alone on the Japanese but on all foreigners in the country. The consulates in Seoul are under heavy guard. Troops are patrolling the streets and all gatherings are broken up as soon as they are discovered. Despite these precautions there is no doubt many secret meetings are being held to plan for a general uprising.

The situation is more serious outside Seoul than in the city. No troops can be spared from here. The few interior garrisons are small, and the people will meet with practically no opposition in case of an anti-foreign outbreak.

An organization known as "The Secret League of Young Korea" has been formed to combat the Japanization of the country. Conservative leaders have made strong representations to Marquis Ito and Foreign Minister Hayashai of Japan begging them not to drive the country to extremes

A mob attacked the palace yesterday while the great seal was being formally placed in the hands of the Crown Prince who has now succeeded the retiring emperor. The Japanese police opened fire and no one knows how many fell before their volley. Twenty-five Japanese are reported killed in the fight.

The native press prints a sensational account of the reported suicide of Prince Yi at The Hague, a story as yet unconfirmed, and rumors that the Japanese intend to take the emperor to Tokio at once have further inflamed popular resent against the Mikado. The people regard the emperor as a martyr, and any attempt to spirit him away will almost certainly result in bloodshed.

The Hau Trial.

Carlshue, Germany, July 20.—Charging that the whole trial of his client was an organized conspiracy to convict him on insufficient circumstantial evidence and that the court, prosecutor and witnesses have shown the strongest animus against the defendant, Attorney Dietz, defending Carl Hau, the Washington College Professor accused of killing his mother-in-law, Frau Molitor, created a great sensation today. He declared the proceedings have in no sense been judical. Dietz brought out one of the strongest points made in Hau's favor, pointing out that a man known to have made threats against Frau Molitor, a discharged servant who had sworn to be revenged, had disappeared the day of the murder and never been located.

Emphasizing the importance of this point Dietz demanded an adjournment until this witness, a man named Wieland, has been examined. Wieland, according to Dietz, was a valet employed in the Molitor home and was dismissed the very day of the murder. He left the house shortly before Frau Molitor was shot in a street near her home after threatening her. Until Wieland has been examined, Dietz declared that a gap which cannot be bridged remains.

Carlsuhe, Germany, July 20.—Prosecutor Bleicher has been challengd to fight a duel by Attoney Dietz, defender of Carl Hau in the latters trial for the murder of his mother in law, Frau Molitor.

Exodus of Elks.

Philadelphia, July 20.—The exodus of the Elks who have been attending the annual convention here during the past week began early today and by noon practically all had departed. Elks' Day at Atlantic City attracted many of the departing hosts and others left for home by way of the Jamestown Exposition.

Grand Exalted Ruler John K. Tener will attend the Jamestown Exposition on Monday, which will be Elks' Day. Past Exalted Ruler Henry A. Melvin has gone to Oakland.

The committee today awarded prizes to the following lodges having the largest number of men in line on the day of the parade:

First prize $500, New York city; second $200, Kansas City, Mo.; third, $100, Scranton, Pa.

Lodge within a radius of 75 miles having the largest number of men in line—First prize $300, Camden; second, $150, Easton; third, $100, Lancaster, Pa.

Much surprise was expressed when the committees awards were made that the Kansas City lodge, which scored one of the biggest hits of the procession with its burlesque circus, had failed to win a prize.

More Attacks on Females.

New York, July 20.—Police Commissioner Bingham's admission that New York's streets are no longer safe for women and children was borne out by three more assaults today. The total is eight in the past 24 hours. Today's victims were: Mrs. Annie Krupke, attacked while sleeping in Corlears Hook Park, where she had fled with her four children to escape the heat, and beaten until it is feared she will die. Mary Kiley, 12 years old, lured into a cellar, attacked and rescued after being choked almost into unconsciousness. Mary Tussio, 2 years old, attacked in her own home and saved by her mother, who beat the assailant off with a chair. Michael Gargone, arrested today on suspicion of some of the crimes which have recently terrorized the city, narrowly escaped mob violence. Even after the man had been locked up in the station house the crowd made a demand for his surrender, and when refused attempted to break in and fought with the police for some time before it scattered. Gargone tried to kill himself by dashing his head against his cell. Commissioner Bingham asserts the epidemic is due to the shortage of patrolmen.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at E. S. Leadbeater & Son's drug store.

Frightful Railroad Accident.

Plymouth, Mich., July 20.—Twelve coaches, heavily crowded with laughing and happy employes of the Pere Marquette Railroad were spinning along near Salem, Mich., when the special crashed into a coal train. Twenty two dead bodies have so far been taken from the wreck. More than 65 are injured. Many of this number will not live, so terribly are they mangled or scalded. Many others are believed to be in the debris.

With a wild shriek, the pleasure seekers, suddenly faced that doom. A quick churning, rasping sound, and scores were lying buried in scalding water or burning cars.

In the awful moment of realization those who were left with senses were driven almost to madness. The scene about the flaming day coaches was one beyond description.

Bodies of girls, men, women and children were piled like so many pieces of drift wood.

Many of the women who escaped uninjured fainted from the sight and lay on the ground, the burning sun beating into their faces as if they were dead. The cars were piled up like timber.

Detroit, July 20.—It transpires that a wrecking relief train was made up in the Union depot yards and despatches to the scene some minutes before the wreck actually occurred. The officials seeing a collision inevitable, summoned surgeon, nurses and wrecking crew and dispatched them without waiting for the collision. Of the 65 injured many will die. Of the 12 excursion cars only five were not damaged, the rest having been crushed. Both engines and three freight cars were buried in the ruins.

Later the reports from the scene of the wreck report that at least 35 bodies have been recovered from the wreck and the total number of dead will exceed this.

The number of injured is still given at 65, many of whom will undoubtedly die

The Magill Case.

Clinton, Ills., July 20.—States Attorney Arthur F. Miller has engaged Pinkertons to unearth evidence thus far unobtainable on which he will seek to convict Fred H. Magill for the murder of his wife, Mrs. "Pet" Magill. L. R. Herrick and E. J. Sweeney, two criminal lawyers of note, have been employed to aid in the prosecution. Requiring extra pay for his trip to Sacramento to have his requisition papers honored, Sheriff Campbell left San Diego with the Magills today. The party is expected here Tuesday night. The State claims that evidence secured during the past 24 hour has greatly strengthened its case. Proof that Mrs. Magill had not purchased poison of any sort is said to be available.

A member of the coroner's jury asserts on the other hand there is little doubt that Mrs. Magill committed suicide: He says: "I was at her home several days before her death. She told me then that she would just as soon make way with herself and that she was greatly troubled over several things. I know that soon after that she settled up some of her affairs with a local business house."

Clinton, July 20.—Attorney Miller today admits that he has no evicence against either Fred Magill or Faye Magill, his bride, arrested upon Miller's presentation of charges in connection with the suicide of Magill's first wife.

Kidnapped and Shot.

Mexico, City, July 20.—Peter Bowen, said to be an American, has been kidnapped from Mexican soil and shot by Guatemalan troops, according to a dispatch from Tapachula, Mexico. Bowen was accused of treason against the Cabrera administration and fled from Guatemala to Tapachula. The Guatemalan soldiers crossed the border and arrested the fugitive so quietly that the Mexican garrison did not know what had happened until the invaders were back in their own country. A short stop was made at the Guatemalan town of San Marcos where the prisoner was executed by a firing squad. His executioners maintain he was a native of Guatemala.

Resignation of Minister.

Paris, July 20.—The first retirement from the ministry as a result of the recent "peaceful revolution" of wine-growers in the Midi district was announced today when M. Sarraut, under-secretary of the interor resigned. Deputy Maujan was elected by the council of ministers to succeed him. It is rumored that further changes among subordinates in the government may follow.

Panic on Steamer.

New York, July 20.—A North river collision during the rush hour today between the Pennsylvania Railroad's ferryboat Baltimore and the steam lighter W. C. Clarke created a panic among the former craft's passengers, in which several tried to jump overboard. The ferryboat was slightly and the lighter considerably damaged. The crash occurred in a dense fog.

Collapse of Telegraphers' Strike.

New York, July 20.—There is not glory enough for all in the settlement in the telegraphers' strike, and today each side is claiming all there is. "The settlement is very satisfactory to us inasmuch as it gives us opportunity to arbitrate our grievances," said Secretary McInenery, of the local union. "That is all we ask. We want to prevent petty discriminations and spite work by small officials and feel confident it will cease when we are allowed to state the facts to the head officials. It is our understanding that hereafter differences are to be settled by a board of arbitration composed of a representative of the company; a representative of the union and a third party selected by them."

Vice President Charles C. Adams, of the Postal Company, said: "We granted nothing. We simply agreed to take the men back at the request of Mr. Neill. That is the only concession we made. There was no agreement regarding arbitration."

At the office of President Clowery, of the Western Union, it was said he would add nothing to his statement that the company will re-employ reliable and efficient operators on their individual application at the salaries paid them when they quit.

Col. Ayres Declared Incapable of Service

New York, July 20.—Col. Charles D. Ayres, U. S. A., brought into prominence by his wife's exclusion from the parade grounds at West Point and the colonel's subsequent statement a propos of the affair, was today declared incapable of service in the army as a result of the ravages of Bright's disease brought on by overwork and exposure. The report was made by the medical members of the retiring board at the present time inquiring into the mental and physical condition of Col. Ayres.

The New York Stock Market.

New York, July 20.—There was a little wavering to the market in the first few minutes, but a strong tone was created by the purchase of fairly large blocks of stocks. This buying was most pronounced in General Electric, Union Pacific, St. Paul and Southern Pacific.

IMPORTANT DECISION.

A decision rendered yesterday by Judge Ingram, in the Law and Equity Court of Richmond in the interpleader suit of the Phoenix Mutual Life Insurance Company vs. W. A. Drinker et al., involves some important principles pertaining to the assignment of insurance polices. Incidentally it gives to Mrs. Willie A. Drinker, widow of Joseph E. Drinker, all the proceeds of a $6,000 policy save four premiums advanced by the assignees of the contract, who expected to reap the richer profits out of the investment in which they put their money. The ruling is based on the ground of public policy, and the assignment contract is held to be in the nature of a wagering agreement. Judge Ingram held that the agreement between Mrs. Drinker and the assignees—City Sergeant J. C. Smith and H. Kelly—by which they were to keep the policy alive and at the death of the insured to give Mrs. Drinker $1,000 was in the nature of a wagering contract, in that neither of the assignees had an insurable interest in the insured, but were dealing through Mrs. Drinker, and that the widow is entitled to all the insurance, subject, however, to the payment to the assignees of the premiums put up by them and also to interest on the money advanced.

The National Magazine for July has been received from its publishers in Boston. Its leading article tells of "Affairs at Washington." "War on the World's Wires," "When Yankees went to Sea" and "Utah and the Mormons" are of unusual interest. A delightful sketch of Marquis Oyama and his wife is given. Nine short stories and the serial, "A Romance of Arlington House," give excellent fiction. "Little Helps for Homemakers" will interest women; other articles, poems, reviews, etc., complete this very good issue.

VALUE OF PROPERTY IN VIRGINIA.

According to figures gathered by the Census Bureau, the value at the close of the year 1902 of the principal salable county possessions, other than sinking fund assets, of the counties of Virginia amounted to $4,679,645. This was divided as follows:

Assets of investment funds, $1,000; assets of public trust funds, $71,710; courthouses, $1,851,440; jails, $515,375; asylums, almshouses and hospitals, $519,975; miscellaneous, $1,720,145.

The following table, showing the per capita value of the real estate and improvements thereon in the various counties of the eighth district, as compared with their per capita indebtedness, will be of interest to many readers. The census figures do not give the per capita value of all classes of property in the counties and cities of the State, but only the per capita of real estate and improvements. However, they do give the per capita for all classes of property for the State at large, and the value of all classes of property is about 185 per cent, of the value of real property and improvements. The figures of per capita realty values are for 1900. Those of per capita indebtedness are for the close of the year 1902:

JUDGE WOOD'S RULING.

Field for argument, both for the prosecution and defense, in the trial of William D. Haywood, charged with murdering Frank Steunenberg, yesterday was limited by Judge Fremont Wood, in Boise, Idaho, who removed from consideration of the jury all evidence bearing on the alleged conspiracy by mineowners and others against the Western Federation of Miners. Judge Wood decided that the defense had made no legal connection of the Mineowners' Association, the Citizens' Alliance of Colorado and the Pinkerton Detective Agency as laying a foundation for the evidence introduced by the defense to show that the charge against Haywood and his codefendants is the outcome of a conspiracy to exterminate the federation. Judge Wood ruled out those parts of the assassin's narrative relative to deportations and employment of detectives as irrelevant and failing to connect any individual or group of men with the so-called plot to exterminate the union. He admitted only stories of crimes in which Orchard participated. Immediately following the decision argument began.

COLLAPSE OF STRIKE.

After being out just a month, the telegraph operators in the Oakland and San Francisco offices of the Western Union and the Postal Telegraph companies settled their strike yesterday afternoon. The operators voted 103 to 4 to return to work under the same conditions and salaries as prevailed when they went on strike and to arbitrate their grievances and differences as provided for in the compromise offer contained in the letter from Col. R. C. Clowry, of the Western Union, on June 20.

Both companies are to re-employ without prejudice the telegraphers who went on strike and the question of increased wages is to be taken up after resumption of work. The telegraphers will appoint a representative and the companies one, the two to select a third, and these three will constitute the arbitration committee.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Dirrahoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. F. Creighton & Co. and Gibson & Timberman.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.
